25X1X7 If either of the following documents are releasable to the [REDACTED], it is requested that sanitized copies be forwarded to [REDACTED]

- a. RR ER 67-10 "Transportation in Mongolia: The Development of a Sino-Soviet Link" #3
- b. RR EM 63-7 "Economic Achievements and Shortcomings of North Vietnam in 1962" #72

2. Under reference cited above, we received from [REDACTED] a copy of "Sino-Soviet Bloc Economic Activities in Underdeveloped Areas, April, 1963". Although this appears to be a sanitized copy (Copy #41), we are uncertain whether it is releasable. We would also appreciate a clarification of the reference on Page 2 to "16,900 Bloc technicians". Does this figure represent the number present at the end of the year, an average for the six month period, or the sum total of all those who arrived regardless of their length of stay?
